

Semester Project: Artificial Intelligence

Complex Computing Problem

Department of Computer Science – Namal University

Instructor: Dr. Shafiq Ur Rehman Khan

Session: Fall 2025

Final Deliverable: Research Paper (Final Report)

Final Presentation:

Date: Tuesday, 20th January 2026

Venue: Artificial Intelligence Lab

Duration: Strictly 5 minutes per group

Slides: Same presentation as previous milestone (no need for new slides)

Final Report Structure:

1. Abstract
2. Introduction and Problem Overview
3. Objectives and CCP Justification
4. System Architecture and Design Details
5. Implementation Details and Algorithms Used
6. Results, Testing, and Evaluation
7. Limitations and Future Improvements
8. Conclusion and References
9. Appendices (source code overview, screenshots, data samples)

General Guidelines:

- Reports should be in formal academic format with headings and references.
- AI-generated or copied content will receive zero marks.
- Each student group must submit an individual report.
- Proper referencing is mandatory.
